# Delta Dental of Orthodontic Discount Program

When you're enrolled in Delta Dental's Orthodontic Discount Program, you won't have to brace yourself when your dentist recommends orthodontic care. You'll be prepared.

---

Delta Dental of Minnesota created the Orthodontic Discount Program with small to medium-size employer groups in mind—groups that often don't qualify for a traditional orthodontic program.

---

The Orthodontic Discount Program may be purchased by employers for all employees or by individual employees on a voluntary basis. Either way, for an affordable monthly fee, members receive great coverage, network savings, and superior service.

## A straightforward plan for adults and children...

Orthodontic Discount Program providers agree to set discounted fees, providing members with savings off the orthodontist's usual fee. Members know their total out-of-pocket cost prior to the beginning of treatment, so there are no surprises.

Members must see an orthodontist who participates in our Twin Cities-based Orthodontic Discount Program Network. For a list of our network orthodontists, contact your broker or Delta Dental sales representative, or check our Web site at [www.deltadentalmn.org](http://www.deltadentalmn.org).

The Orthodontic Discount Program covers both adults and children and is available to all eligible employees and dependents who have not already started orthodontic treatment. Plan members must remain enrolled in the program during their entire course of treatment.

Members are covered for up to 30 consecutive months of active orthodontic treatment and 12 months of follow-up visits after the orthodontic appliances are removed. This plan covers orthodontic x-rays, active orthodontic treatment, appliances, and one set of retainers.

### ...with superior service

As with all our dental programs, members of our Orthodontic Discount Program receive world-class service. We know you'll find our Orthodontic Discount Program an affordable, desirable addition to your current dental program.
