

National Provider Identifier (NPI)

Get It

If you haven't already applied for and received your NPI, your time is running out. Starting May 23, 2007 you will be required to use your NPI on all claims. Minnesota law requires the NPI on paper and electronic claims.

Here are some helpful Internet resources:

- The [federal government's NPI Web site](#)
- The [federal government's NPI tutorial slideshow](#) (best with high-speed internet connection)
- [NPI application help](#) (Phone assistance is available at 1-800-465-3203)
- The [American Dental Association's HIPAA Web page](#)

Share It

Delta Dental of Minnesota (DDMN) has been actively collecting dentist's NPI's since October 2006. To date over 80% of the DDMN Participating Dentists have sent in their NPI's. If you have not yet sent your NPI to DDMN please do so.

Use It

DDMN's past communications had requested that you refrain from using your NPI on any claims to ensure that we were totally prepared. We are prepared! DDMN is now ready to receive claims, both paper and electronic, that have the NPI on them. Please remember to continue to include your TIN and License on the claim.

If you have not submitted your NPI to us, please fill out this section and fax return to 1-866-286-8840.
