- Allowed Amount:**
A set amount the Plan agrees to pay for a service or product when provided by a participating in-network provider. When the charges of an out-of-network provider are higher than the allowed amount, the member is generally responsible for the difference.
- OUT-OF-NETWORK PROVIDERS (DELTA DENTAL PREMIER ONLY): REIMBURSEMENT IS BASED OFF 50% OF THE ALLOWED AMOUNT.**
If you use an out-of-network provider, you will receive significantly lower reimbursement amounts for services compared to the reimbursements you would receive from a Delta Dental in-network provider.

It is strongly encouraged that your provider submit a pre-treatment estimate prior to services being received. This will prevent any surprise charges after treatment has been received. If you receive services from an out-of-network provider, you may need to:
 - Pay for services up-front
 - Pay more money for services than you would with an in-network dentist
 - File the dental claim form with Delta Dental
 - Receive reimbursements sent directly to you from Delta Dental

- Find a in-network provider at [DeltaDentalMN.org/UofM](https://www.DeltaDentalMN.org/UofM)**

Benefits are paid as a percentage of maximum allowable fee.
*Posterior composite resin restorations (white fillings on back teeth) are paid as an amalgam allowance under the Delta Dental PPO™.
The patient will be balance billed the difference between the white filling cost and allowed amalgam filling cost.
This is a summary of covered benefits only. Please refer to your Summary of Benefits for more detail.
