Out of Network

If you use an out-of-network provider, you will receive significantly lower reimbursement amounts for services compared to the reimbursements you would receive from a Delta Dental in-network provider.

It is strongly encouraged that your provider submit a pre-treatment estimate prior to services being received. This will prevent any surprise charges after treatment has been received. If you receive services from an out-of-network provider, you may need to:

- Pay for services up-front
- Pay more money for services than you would with an in-network dentist
- File the dental claim form with Delta Dental
- Receive reimbursements sent directly to you from Delta Dental

Find a in-network provider at: [DeltaDentalMN.org/UofM](https://dental.mn.gov)

Benefits are paid as a percentage of maximum allowable fee.
*Posterior composite resin restorations (white fillings on back teeth) are paid as an amalgam allowance under the Delta Dental PPO™. The patient will be balance billed the difference between the white filling cost and allowed amalgam filling cost.
This is a summary of covered benefits only. Please refer to your Summary of Benefits for more detail.
